

MOCKBERG

ABOUT THE BRAND

The Swedish watch brand Mockberg finds its inspiration in the traditions of Swedish craftsmanship. The name itself comes from Mockberget, a small mountain near Lake Siljan in Dalarna, middle of Sweden. Dalarna, which means “the valleys” in Swedish, has long been the home of Sweden’s jewelry makers. Mockberg was founded with the vision to design accessories that combined traditional Swedish jewelry design, with today’s modern Scandinavian minimalism and functionality.

OUR DESIGN

Our watches are handcrafted with exclusive materials, high quality movements and classic design. The watches are designed to rest easily on your wrist. The strap is connected high on the case which is slightly shaped as a bowl, a combination that gives you a feeling that the watch floats freely on your wrist and gives a three-dimensional impression removing friction of the strap against the wrist. It’s the details that matter.

ORIGINAL - 34mm

'Original' is the first watch Mockberg ever launched, hence the name. The brown or black leather strap is combined with steel, silver or gold hardware, which creates various combinations and a timeless style.

RRP 149 EUR

PETITE - 28mm

'Petite' is the little sister of Original, and come in the same color combinations, just a little smaller.

RRP 129 EUR

MESH - 34mm

Featuring a steel strap, our Mesh watch comes in three colors, with both white and black dial.

RRP 159 EUR

MESH PETITE - 28mm

Just like it's big sister, our Mesh Petite watch also comes in three colors, white or black dial.

RRP 139 EUR

MODEST LINKS

Modest Links is our new generation watches, featuring a linked strap and a premium stainless steel case. The collection comes in two sizes - 28mm and 34mm, black or white dial, and three colors; gold, silver, and rose gold.
